

Course-Level Bypass Examination

ACT 101 Principles of Accounting I – 4 Credit Hours

Course Description

This is the introductory course in accounting that stresses the accounting process as a whole. The course covers the general rules of accounting for service companies, adjusting and closing procedures, cash and accounts receivable.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Describe and interpret the components of an accounting system
- Describe and develop the steps involved in the accounting cycle – transactions' analysis with debits and credit, journalize transactions, post to ledger accounts, make period ending adjustments and closing entries, and construct the financial statements
- Develop financial statements in a service company
- Describe and analyze accounting issues related to Cash
- Describe and analyze accounting issues related to Accounts Receivable
- Identify Financial Accounting Standards Board (FASB) pronouncements

Exam Format

Student will take a written multiple-choice exam.

Passing the Exam

If exam is passed with a score of 70% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Study resources can come from any introductory text in financial accounting. An example might be: *Financial Accounting 14 edition* by Warren, Reeve and Duchac. Cengage Learning 2016.

Exam Schedule

Students may take the exam anytime throughout the year. However, the examination must be taken no later than a week before the quarter starts for which a student wants potential credit for this course.

Contact Mike Miller at mmiller@sullivan.edu for testing dates, times and locations. For Lexington campus, contact Abby Helton at ahelton@sullivan.edu

Course-Level Bypass Examination

AOM 105 Keyboarding Essentials – 4 Credit Hours

Course Description

AOM105

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Key a three-minute timed writing at 40 wpm with no more than three (3) errors (no backspace allowed)
- Key and format an interoffice memo
- Key and format a block style and modified-block style business letter

Exam Format

The student will properly format three business documents and will take a three-minute timed writings to be completed within a 90 minute time limit according to instructions provided during the exam. No resources (books, internet, notes, etc.) can be used during the exam.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Text: Keyboarding Course, Lessons 1-25, 19th edition. VanHuss, Forde, Woo, and Robertson South-Western; Thomson Learning, Inc.

Course-Level Bypass Examination

BFS 104 Basic Culinary Theory – 4 Credit Hours

Course Description

The student spends class time devoted to the understanding of basic cooking methods and techniques. Students learn the basic methods of recipe reading, costing and converting. Students develop a sound understanding of specific food items including meats, poultry, seafood, vegetables, stocks, sauces and starches.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Basic cooking technique and terms
- Equipment terminology and proper usage
- Basic food production methods

Exam Format

Written exam

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Professional Cooking textbook binder

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

Course-Level Bypass Examination

BFS 106 Basic Culinary Skills Laboratory – 6 Credit Hours

Course Description

Students spend lab time in hand-on orientation to tools, equipment, recipe production, measurements, knife drills, and cooking procedures. All hands-on activities emphasize safety and skill development. Students breakdown and operate kitchen equipment. Students spend time learning and using the following: cookery methods, product identity, soups, stocks and sauces, and function of the production kitchen.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes: See attached Basic Culinary Skills Practical Exam parameter sheet

Exam Format

Practical cooking exam: 3 course meal

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Professional Cooking textbook binder

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

Course-Level Bypass Examination

BFS 214 Garde Manger Theory – 4 Credit Hours

Course Description

This course offers instruction in the fundamentals of Garde Manger. In this course the student learns the theories related to cold food preparation, hors d'oeuvres, display platters, charcuterie, smoking meats, butchery and seafood, and preparing buffet centerpieces from edible food stuffs.

Prerequisite

Completion or bypass of BFS 104 Basic Culinary Theory and BFS 106 Basic Culinary Laboratory.

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Garde Manger technique and terminology
- Cheese, pasta, charcuterie, butchery, preservation, and centerpiece production methodologies

Exam Format

Written exam

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Professional Cooking textbook binder
Garde Manger textbook binder

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

Course-Level Bypass Examination

BFS 216 Garde Manager Laboratory – 6 Credit Hours

Course Description

In this course the student learns the methods and theories related to cold food preparation, hors d'oeuvres, display platters, charcuterie, smoked meats, butchery and seafood and preparing buffet centerpieces from edible foodstuffs. This course allows the student the opportunity to practice the fundamentals of cold food preparation, presentation, and service. Students develop Garde Manger skills and learn various functions as they rotate daily through work assignments and prepare products. Production methods and safe food handling techniques are emphasized.

Prerequisite

Completion or bypass of BFS 104 Basic Culinary Theory and BFS 106 Basic Culinary Laboratory.

Student Learning Outcomes

The exam covers the following student learning outcomes:

- See attached Garde Manger Six Course Practical Exam parameter sheet

Exam Format

Practical Cooking Exam

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Professional Cooking textbook binder
Garde Manger textbook binder

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

Course-Level Bypass Examination

BFS 264 Advanced Culinary Techniques Laboratory – 4 Credit Hours

Course Description

Students learn how to operate efficiently and effectively in a variety of restaurant kitchen stations such as broiler, sauté, roundsman, etc. Special emphasis is placed on presentations and plating of quality food served to the public. In addition, the student learns the essentials of service in a front-of-the-house restaurant operation.

Prerequisite

Completion or bypass of BFS 214 Garde Manger Theory and BFS 216 Garde Manger Laboratory.

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Written: Advanced cooking technique and terms, Equipment terminology and proper usage, Advanced food production methods
- Practical: See attached Advanced Techniques Final Practical Menu

Exam Format

Written exam
Practical cooking exam

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Professional Cooking textbook binder

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

Course-Level Bypass Examination

CAM 134 Food Service Sanitation – 4 Credit Hours

Course Description

This course provides the student with a background in sanitation as it relates to health, with the ability to recognize proper sanitation techniques, and with the knowledge to implement a sanitation program in a food service operation.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Food safety
- Understanding, controlling, and eliminating potential microbial hazards
- Safe food handler
- The flow of food
- Cleaning and sanitizing
- Pest management
- Food safety regulation and standards

Exam Format

Written exam

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

ServSafe Coursebook (National Restaurant Association), current edition

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

Course-Level Bypass Examination

CAM 174 Basic Nutrition – 4 Credit Hours

Course Description

This course provides the student with an introduction to the science of nutrition. Topics include the major classes of nutrients, energy needs, the importance of a balanced diet based on Dietary Guidelines for Americans, and modes of incorporating these guidelines into everyday life and the commercial food service.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Dietary Guidelines and Tables
- Carbohydrates, lipids, proteins, vitamins, and minerals in the diet
- Foundations of healthy cooking
- Healthy menus and recipes

Exam Format

Written exam

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Nutrition for Foodservice & Culinary Professionals, current edition

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

Course-Level Bypass Examination

CAM 256 International Cuisines – 6 Credit Hours

Course Description

This course reinforces knowledge of tools, equipment, vocabulary and theories learned in other courses along with providing the student with the exposure to cooking methods, procedures and ingredients used in international cuisines. The menus discussed and demonstrated by the instructor have been selected to give the student an introduction to the fundamentals of modern continental cuisines. The menu items are prepared by the students not merely as isolated dishes, but also as examples of the application of methods necessary to the productions of the dishes.

Prerequisite

Completion or bypass of BFS 214 Garde Manger Theory and BFS 216 Garde Manger Laboratory.

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Written: Food, ingredients, cooking techniques, and terminology from the 13 different target study cuisines.
- Practical: See attached International Cuisines Final Practical Exam and Research Project parameter sheet.

Exam Format

Written exam
Practical test

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

International cuisines binder and handouts

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at

aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

CAM 284 Food and Beverage Control – 4 Credit Hours

Course Description

This course places emphasis on learning how to control, purchase and manage the various aspects of a very high volume business.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Calculating food, beverage, and labor cost & control
- Basics of food purchasing, inventory control, issuing & control
- Food service industry regulation and law
- Marketing and advertising introduction

Exam Format

Written exam

Passing the Exam

If exam is passed with a score of 85% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Controlling Foodservice Costs (National Restaurant Association), current edition

Exam Schedule

Exam is administered on a case-by-case basis each quarter.

Contact Chef Allen Akmon at aakmon@sullivan.edu for testing dates, times and locations. For Lexington campus, contact John Foster at jfoster@sullivan.edu

Course-Level Bypass Examination

CSC 106 Computer Concepts – 4 Credit Hours

Course Description

This course provides an overview of the capabilities and limitations of a computing environment. Discussion topics and hands-on activities include input/output devices, disk maintenance, software/hardware installation, data storage, digital communications, careers in the computer field, and the future of computers and technology.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

The exam covers basic concepts in computer hardware, input/output and storage devices, disk maintenance, software and hardware installation, data processing and storage, networking, data communications, system software, application software, graphics applications, computer ethics, security issues, and the social impact of the computer.

Exam Format

The exam consists of multiple-choice questions answered within a of 90 minute time limit. No resources (books, internet, notes, etc.) can be used during the exam.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Text: Discovering Computers, Introductory: Your Interactive Guide to the Digital World, Cengage.

Course-Level Bypass Examination

CSC 118 Computer Applications I – 4 Credit Hours

Course Description

This course introduces the student to the use of microcomputers including features and techniques of graphical user interfaces, word processing, spreadsheets, databases and graphical presentations

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

The exam covers a student's ability to perform the following actions:

The exam covers a student's ability to perform the following actions:

- Word 2013 – create and format a document; insert a picture; and create a table.
- Excel 2013 – create and format a worksheet with labels, values, formulas, functions; create and format a chart.
- Access 2013 – enter table records, modify a table structure, create a simple query, and create a simple report.
- PowerPoint 2013 – create and format a presentation with animation and transitions.

Exam Format

The student will create/edit a document, a spreadsheet, a database, and a presentation according to instructions provided during the exam. These files also must be correctly submitted to receive credit.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Text - Microsoft Office 2013 Custom Edition; Shelly, Cashman.

Exam Schedule

- Friday prior to the start of classes

Course-Level Bypass Examination

CSC 218 Computer Applications II – 4 Credit Hours

Course Description

This course introduces the student to using intermediate and advanced features of common applications for word processing, spreadsheets, databases, and presentation software; integrating applications using object linking and embedding (OLE); and using the personal computer to develop business solutions.

Prerequisite

Completion or bypass of CSC 118 Computer Applications I.

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Word 2013 – create a professional document; apply styles; insert and format graphics; create and format a table.
- Excel 2013 – create a professional workbook; apply styles; enter formulas and functions using absolute and relative references; build mathematical, statistical and logical functions.
- Access 2013 – modify a table structure; create table relationships; create a custom form; create a custom query.
- PowerPoint 2013 – create a professional presentation; apply a theme; and insert and manipulate graphics.

Exam Format

The student will create/edit a document, a spreadsheet, a database, and a presentation according to instructions provided during the exam. These files also must be correctly submitted to receive credit.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Course-Level Bypass Examination

ENG 101 Composition I – 4 Credit Hours

Course Description

This is a writing course which helps students develop and express ideas through various expository models applying standard rules of usage. Emphasis is also placed on the research process and critical reading.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Design and produce a short (500 word) essay on an assigned topic.
- Demonstrate formal academic-level usage of grammar, style, and sentence structure
- Explain selected grammatical/rhetorical terms/concepts and provide examples
- Correctly utilize APA formatting and style

Exam Format

90-minute written examination consisting of short response questions on grammatical, stylistic, and rhetorical concepts/applications, APA style and the research process and the completion of a 500-word argumentative essay.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

The Bedford Guide for College Writers (with Reader, Research Manual, and Handbook); Publication Manual of The American Psychological Association.

Exam Schedule

- Friday prior to the start of classes
- Monday of Week 7
- Friday of Week 7

Contact Joshua Simpson at jsimpson@sullivan.edu for testing dates, times and locations. For Lexington campus, contact Sacha Pruitt at spruitt@sullivan.edu

Course-Level Bypass Examination

ENG 102 Composition II – 4 Credit Hours

Course Description

This course is a continuation of English 101, stressing critical thinking and advanced writing strategies. Students continue developing writing processes pertaining to topic selection and development, revision, organization, editing, and collaborative writing. The class places special emphasis on generating longer texts, reading critically, and developing research skills.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Design and produce a short (500 word) argumentative essay on an assigned topic.
- Demonstrate formal academic-level usage of grammar, style, and sentence structure
- Explain selected grammatical/rhetorical terms/concepts and provide examples
- Correctly utilize APA formatting and style

Exam Format

90-minute written examination consisting of short response questions on advanced rhetorical elements and research strategies; completion of a 500-word essay.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

The Bedford Guide for College Writers (with Reader, Research Manual, and Handbook); Publication Manual of The American Psychological Association.

- Friday prior to the start of classes
- Monday of Week 7
- Friday of Week 7

Contact Joshua Simpson at jsimpson@sullivan.edu for testing dates, times and locations. For Lexington campus, contact Sacha Pruitt at spruitt@sullivan.edu

Course-Level Bypass Examination

ENG 204 Advanced Writing – 4 Credit Hours

Course Description

This course introduces the student to the theory and practice of argument design, analysis and criticism. The student meets these objectives by analyzing and critiquing personal arguments and those of others. The course includes projects in the Toulmin and Rogerian strategies and an extended section on business writing

Prerequisite

Completion or bypass of ENG 102 Composition II.

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Identify rhetorical elements of the Classical, Toulmin, and Rogerian models of argumentation
- Recognize specific components of an assortment of business document types (letters, memos, formal reports, etc.)
- Distinguish various rhetorical fallacies
- Design and compose an argumentative essay which closely adheres to either the Toulmin model or the Rogerian model of argumentation
- Locate specific, relevant, and reliable sources, and proficiently incorporate these sources into an essay using APA style

Exam Format

90-minute written examination consisting of short response questions on various persuasive rhetorical strategies (including Classical, Toulmin, and Rogerian models of argumentation) and contemporary career-writing terms, practices, and methodologies; completion of a persuasive essay on an assigned topic using a selected persuasive structure, including support from database research and skilled demonstration of APA style.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

The Well-Crafted Argument: A Guide and Reader; The Business Writer's Companion.

Exam Schedule

- Friday prior to the start of classes
- Monday of Week 7
- Friday of Week 7

Contact Joshua Simpson at jsimpson@sullivan.edu for testing dates, times and locations. For Lexington campus, contact Sacha Pruitt at spruitt@sullivan.edu

Course-Level Bypass Examination

MTH 101 College Mathematics – 4 Credit Hours

Course Description

This college level mathematics course includes the following concepts: simplifying algebraic expressions, solving equations and inequalities, graphing linear equations and inequalities, calculating slope and finding equations of lines, factoring and solving quadratic equations

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Solve equations and inequalities
- Solve applied problems
- Graph linear equations and calculate slope
- Evaluate operations with polynomials
- Factor and solve quadratic equations

Exam Format

Student will take a 90-minute written exam on solving linear equations & inequalities, graphing linear equations, and all operations with polynomials, factoring and solving quadratic equations. To successfully bypass a course, the student must complete the bypass exam with an overall score of 90% or better.

Bring a calculator.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

Course-Level Bypass Examination

MTH 115 Principles of Mathematics – 4 Credit Hours

Course Description

Studies of operations on fractions, decimals and percents, ratios and proportions are undertaken. Descriptive statistics measuring the center of a data set, the mean, median and mode of a data set, are considered. Data tables and graphs such as pictographs, bar charts, circle graphs and line graphs will be examined. The course will conclude with a study of solving one variable linear equations. The course will emphasize applying these basic principles to a broad range of topics including culinary specific applications.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Solve mathematical problems which feature 1) Fractions; 2) decimals; 3) percentages; 4) ratios, 5) proportions and 6) single variable linear equations
- Solve real-world applications of the above basic concepts
- Solve applied problems using different types of statistical data and graphs

Exam Format

Student will take a 90-minute written exam. To successfully bypass a course, the student must complete the bypass exam with an overall score of 90% or better.

Bring a calculator.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

PLS 114 Introduction to Law & the Legal System – 4 Credit Hours

Course Description

This course presents a descriptive analysis of the American Legal System and the role of the paralegal within that system. It also provides a practical and theoretical approach to the problems and issues paralegals will face on the job. It is a required course for all students in all paralegal studies programs.

Prerequisite

None

Exam Format

20 multiple choice questions
25 true/false questions
35 matching terms and phrases
2 essay questions

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

INTRODUCTION TO LAW FOR PARALEGALS, current edition, by Currier & Eimmermann; Aspen Publishers.

Exam Schedule

Quarterly, by appointment with 20 days advance notice.

Contact Nicholas Riggs at nriggs@sullivan.edu for testing dates, times and locations. For Lexington Campus, contact Mike Wilson at mwilson@sullivan.edu

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Kentucky and federal court systems
- Federal and state governmental structure
- Role of paralegals in legal system
- Traits of a good paralegal
- Ethical standards for paralegals
- Kentucky Supreme Court Rule 3.700
- Legal research, including primary & secondary sources and mandatory & persuasive authority
- Constitutional law, including allocation of power, due process and equal protection
- Property law
- Contract law
- Wills & Estates
- Stare Decisis & Precedent
- ABA approval of paralegal education programs

Course-Level Bypass Examination

PLS 134 Legal Research – 4 Credit Hours

Course Description

In this course, the student gains a working familiarity with the major resource books found in a law library. The student is taught a practical approach to finding and interpreting constitutional provisions, administrative regulations and statutes, as well as researching and analyzing case law. The student is given hands-on experience in using case reporters, digests, citators, statutory codes, encyclopedias, hornbooks and other legal materials.

Prerequisite

None

Exam Format

25 matching terms and phrases
20 citation exercises
Research & Writing project

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."

Suggested Study Resources

LEGAL RESEARCH & WRITING FOR PARALEGALS, current edition, by Bouchoux, Aspen Publishing Co.;

Quarterly, by appointment with 20 days advance notice.

Contact Nicholas Riggs at nriggs@sullivan.edu for testing dates, times and locations. For Lexington Campus, contact Mike Wilson at mwilson@sullivan.edu

Student Learning Outcomes

The exam covers the following student learning outcomes:

- United States Reports (U.S.)
- Primary source of law
- Treatise (hornbook)
- Shepard's Citations
- Federal Reporter 2d (F.2d)
- Legal encyclopedia
- West Federal Practice Digest 2d and 3d
- United States Code
- Mandatory authority
- Governmental agency
- Federal Supplement (F. Supp.)
- United States District Court
- Descriptive (fact) word approach
- Citation
- Legislature
- Reporters
- Headnote
- Ky. Digest
- Judiciary
- Superscript
- Constitution
- K.R.S.
- Code
- K.A.R.
- Case digests
- Annotations
- Formatting case citations
- Performing legal research
- Writing an INTERNAL MEMORANDUM OF LAW, with an ANNOTATED BIBLIOGRAPHY

Course-Level Bypass Examination

PLS 144 Legal Writing – 4 Credit Hours

Course Description

This course focuses on the enhancement of legal writing skills and advanced legal research. Emphasis is given to preparation of appellate briefs, interoffice memoranda and other formal documents.

Prerequisite

None

Student Learning Outcomes

The exam covers the following student learning outcomes:

- Preparation of an essay on an emotional legal issue
- Preparation of comprehensive brief
- Preparation of an internal memorandum of law (
- Preparation of an appellate brief

Exam Format

Submitting written assignments.

Passing the Exam

If exam is passed with a score of 90% or above, the course will be added to the student's transcript with a grade of "P."
